Instead, if you have a plugin that doesn't like the automatic saving, you can turn it off. If you are an advanced user of this software and your work is a little complicated, it is a good idea to turn off automatic saving for a while to give yourself the chance to save your work. Pros: Easy

What's New in the ATopSoft AutoSave?

AutoSave can help you save your work automatically. It will save your file if you have finished the editing. It can automatically save your work by finding out the time interval (for example, save every 10 seconds), and if the user has a new editing, it will immediately save your file. AutoSave has a built-in scheduler. You only need to select the time interval and save the application manually. ATopSoft AutoSave is completely integrated with the application you are using. It will be protected by the application you are using. This program is very easy to use. Just set up the data for saving your file, and you can enjoy it. Key Features: 1. Autosave function. Autosave the file when the editor is closed. 2. Can set the interval of time interval to save automatically. 3. When the program is paused, it will automatically save your file. 4. When you open the program, it will automatically close the file that was saved in the previous session. 5. You can view the log file to know whether you have saved your file in the previous session. 6. The auto-save function is not affected by the autostart function. 7. You can only set one interval of time interval to save automatically. 8. You can set the default time interval to save the file automatically. 9. You can set to every five minutes, 10 minutes, 30 minutes, one hour, two hours, three hours, four hours, six hours, eight hours and one day. 10. You can save any time interval to save the file automatically. 11. The backup file will be kept in the Application folder automatically. 12. Protect the file before saving. 13. The log file will be kept in the Application folder. 14. Can export to HTML/MS-Word/PSD/EXCEL/MS-POWERPAD. 15. Support Windows 2000/XP/2003/Vista. 16. Support 32-bit and 64-bit architecture. 17. Support both English and Chinese language. 18. Create a full-version program. Installation instructions 1. Unzip the file you downloaded. 2. Move the folder to your computer. 3. Drag and drop the icon on your desktop. 4. Run the program and the auto-save function will be enabled. 5. Click on the Auto Save button to enable the AutoSave function. 6.
