Filter Gallery ===== Photoshop has a vast selection of filters you can use to transform an image. Use Filter > Sharpen > Unsharp Mask to adjust the edges of an image. Flatten Images makes an image printable and saves unwanted white space in an image. Enlarging only Parts of an image enables you to make an image bigger. Rotate Images allows you to turn an image sideways and upside down. Upside Down Images allows you to make images appear as if they are flipped or reflected. Transform (Draw) ===== Ungroup Elements makes groups of similar items visible so they can be manipulated separately. Smart Objects save a document as a digital file, rather than simply a representation of an image. These are not created in Photoshop, but in Adobe Photoshop Elements. Gimp ==== Gimp is a graphics editor that runs on most operating systems. To save an image in Gimp, use File > Export > PNG, but remember to retain the .png file extension, as the program will automatically save a file as .png, even if you specified .jpg in the Save As field. Gimp has a selection, tools, and paths that allow you to paint, erase, modify, copy and paste on an image. Filters enable you to alter the appearance of an image, including adjustments of colours, brightness, contrast, and so on. Color Picker ===== Color Picker is a feature in GIMP that allows you to see and select any color, or set any color to any available color. You can create color links for palette color sequences, as well as setup a range of colors for gradients, HDR or luminance/saturation adjustments. You can also use the color picker to load a texture, add a drop shadow, or create a dynamic layer mask. GIMP also allows you to save an image as a file, so the image can be stored on a hard disk drive. Versions ===== GIMP is available in many variations, including Gimp 2.8 or Gimp 2.7. A GIMP development release is available in version 1.3. Paint ===== Paint allows you to edit, crop, or adjust an image. The Color Picker allows you to select any color, even if it is not a perfect match of a color you already have. You can use the Color Pick
